Gas smell or carbon monoxide

Last Modified on 11/23/2026 2:22 pm EST

Smell gas or hear a carbon monoxide alarm? Leave right away, then call 911 from outside. Don't switch lights on or off, or use anything that could make a spark.

Kilowatt Creek doesn't provide natural gas. Once you're safe, call your gas company's emergency line. In our area that's Riverline Gas.

If emergency crews need us to cut the power to your home, they'll call us directly.
