Budget billing

Last Modified on 11/23/2026 2:22 pm EST

Budget billing spreads your yearly costs evenly, so winter and summer bills don't surprise you.

How it works

- We average your last 12 months of bills to set your monthly amount.
- Every 6 months we compare what you paid to what you used, and adjust your amount up or down.
- Once a year, in your anniversary month, any difference is added to or credited on your bill.

Sign up

1. Sign in to My Account and choose **Billing options**.
2. Select **Budget billing**.
3. Your account needs to be paid up to date to join.

Budget billing doesn't lower your total cost. It just makes it predictable.
