How we notify you about planned work

Last Modified on 11/23/2026 2:42 pm EST

Subscribe to this Planned maintenance section to get an email whenever we post new planned work or change a date.

Subscribe to updates

1. Go to the Planned maintenance section.
2. Select **Subscribe**, next to the section title.
3. Enter your email address. We'll send a summary of new and updated notices, and you can unsubscribe at any time.

Other ways we let you know

- We mail a postcard to affected homes at least 3 days before planned work.
- Customers on our medical priority list also get a phone call.
- Each job has its own page in this section, with the date, time and area.

After water work, you may see cloudy or rusty water for a short time. Run your cold kitchen tap for a few minutes until it's clear.

Power out and it isn't on the schedule? Report an outage or call (555) 018-2299.
